REAR SPACE: LE BOMA, LE PATIO AND THE TERRACES

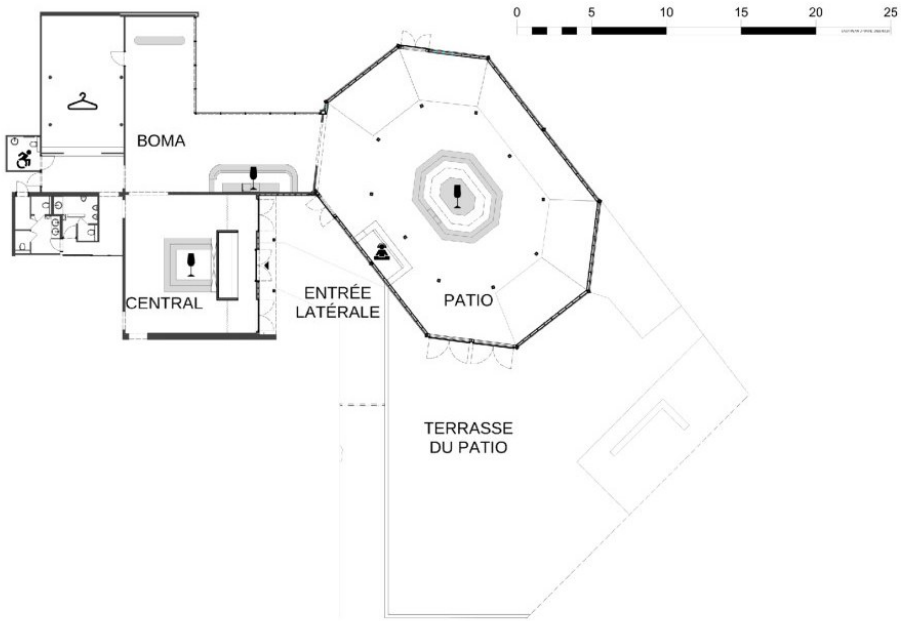

Reached via its own dedicated entrance, this ensemble offers a natural, immersive journey, where each space plays a distinct role in the flow of your event.

Le Boma, a glass-roofed space opening onto the woods, is ideal for welcome drinks. With its aperitif area and permanent bar, it creates a welcoming and convivial atmosphere before the main event begins.

In fine weather, the 250 m² private terrace provides the perfect setting for summer receptions of up to 300 standing guests or 175 guests for a barbecue.

At the heart of the ensemble lies Le Patio, a spacious 230 m² hall with a distinctive industrial character, enhanced by its exposed timber roof structure. With its lighting effects, alcoves, stage and retractable bar integrated into the floor, it adapts to every occasion: a conference for 230 guests, a standing reception for 200, a seated dinner for 220 or a dance party for up to 850 guests.

A raw space that becomes exactly what you make of it.
